In accordance with the requirements for post license trainings, below are the identified Foster Parent College courses that fit the DCF guidelines for Trauma Informed and Crisis Intervention.

TRAUMA INFORMED

Caring for Children Who Have Been Sexually Abused

Explores the emotional and behavioral effects of child sexual abuse on children in care and offers strategies to help overcome the challenges foster parents face.

Child Abuse & Neglect A pre-service course designed for individuals interested in caregiving which focuses on child maltreatment. Learn about the characteristics, symptoms and reporting standards for child maltreatment.

Children Entering Care: Mental Health Issues

Explores commercial sexual exploitation of children, what it is and how parents can recognize signs that a child is being sexually exploited.

Children Entering Care: Physical Health Issues Explores common physical health issues of children entering care & how parents can collaborate with health care & community providers to support medical needs.

Grief & Loss in the Care System Discusses grief & loss as it impacts foster children, birth parents and foster caregivers.

Safe Parenting Workshop explores safe parenting issues. Such as safety plans; children's health, safety, and security interests; a child's actual versus developmental age; trauma history; treatment plans, etc. They provide concrete information for caregivers on strategies and regulations.

Trauma-Informed Parenting Explores how parents can care for a child while being sensitive to his or her past traumatic experiences.

Understanding Behavior in Foster Children

Explores problematic behavior in foster children and how foster parents can better understand the purpose of a child's behavior through careful observation.

TRAUMA AND CRISIS

Understanding Sex Trafficking Explores commercial sexual exploitation of children, what it is and how parents can recognize signs that a child is being sexually exploited.

CRISIS INTERVENTION

Anger Pie This course examines the ABCs of behavior as a tool parents can use to understand their child's anger: Antecedents, bias/behavior, positive & negative consequences and healthy anger.

Advanced Parenting Workshop on Self Injury

Explores non-suicidal, self-injury & other forms of self-injurious behavior. With Dr. Delaney & teaching assistant, participants use the Trauma-Sensitive Review Form to understand the children's behavior and develop an action plan.

Advanced Parenting Workshop on Problematic Sexual Behavior

Workshop addresses problematic sexual behavior in children in care. Participants learn how to determine whether a child's sexual behavior is problematic and how to respond.

Escalating Behavior Unwrapped Explores escalation, its causes, and strategies for de-escalation. *Before taking this course, it is strongly recommended that trainees take Trauma-Informed Parenting

Non Compliance & Defiance Examines the spectrum of cooperation and noncompliance, from fearful cooperation to defiance, including the zone in the middle of the spectrum called self-assertion.

Running Away This workshop explores reasons children run away from caregivers, five types of runaway behavior are examined and discusses warning signs of running away. Also the development of a safety plan.

The Role of Mandated Child Abuse Reporters This course discusses the challenges and responsibilities mandated reporters face and provides strategies to help ensure the investigation process is not compromised.

If you need an account set up or have any questions please contact your area CAFAF Liaison who will help you find the answers you need.
